## PROFILE

**Front-end developer** from Kerala with **2.10+** years of experience building responsive, user-centric web applications using **React.js** and **Next.js**. Focused on delivering clean, intuitive interfaces with strong attention to usability, performance, and collaboration.

## WORK EXPERIENCE

### Front End Developer

09/2024 – Present | Kochi, Kerala

#### Telematum Healthcare

A global AI-driven healthcare and chatbot technology company redefining innovation-where I lead and build the entire frontend ecosystem across three live projects as the sole React frontend engineer.

- Next.js Developer building a medical platform to streamline clinic operations-including appointments, patient queue management, medical records, and admin workflows-delivering a responsive UI with **Tailwind CSS + ShadCN**, authenticating via **Zitadel**, and managing state using **Redux Toolkit**.
- Built Cognyn AI, a multi-model chatbot platform integrating OpenAI, Claude, Gemini, and more, with a Tailwind CSS + ShadCN interface, **Clerk** auth, **Framer Motion** and features including PDF/image-based context, Superquery, TTS, **WebRTC** voice chat, **PWA** features, cross-model conversation rewriting, and chat export/sharing.
- Created Telematum's corporate site with Next.js, Tailwind CSS, ShadCN, and **GSAP** animations for an engaging user experience.
- Optimized application performance using **React Profiler** and Lighthouse to identify re-render bottlenecks, reduce re-render bottlenecks, and enhance component efficiency for a smoother user experience.

### Junior Front End Developer

04/2023 – 09/2024 | Infopark, Thrissur, Kerala

#### Gewan Infotech Solutions

A company specialized in providing tech solutions

- Developed responsive frontends with **React.js**, **Next.js**, **Mantine UI**, and **Bootstrap**
- Maintained backends using LoopBack and MongoDB to deliver robust applications
- Collaborated with cross-functional Agile teams to prioritize and complete tasks
- Created the GESSA Admin Panel in React.js for comprehensive employee management
- Led development of the G Connect suite (Super Admin, NodeAdmin, and End User modules), a comprehensive platform for booking flights, cars, insurance, and more.
- Implemented responsive UI for the Virtual Card Manager, enabling seamless employee management across devices.

### Front End Developer

#### Freelance

Provided freelance front-end development service

- Developed an e-commerce website using Next.js and Mantine UI, featuring product browsing, detailed view and place order.
- Built another e-commerce platform with Next.js, ShadCN, and Tailwind CSS, implementing user authentication and a mobile-friendly UI

## EDUCATION

### Mearn Stack development

09/2022 – 03/2023

#### Luminar Technolab

GPA: A+

### BSc Computer Science

06/2019 – 05/2022

#### Sahrdaya College of Advanced Studies

Secured **8th Rank** across Calicut University for academic excellence.

## CORE SKILLS & TECH STACK

- |                  |                |                                  |
|------------------|----------------|----------------------------------|
| • HTML           | • CSS          | • Tailwind CSS                   |
| • Javascript     | • Typescript   | • React JS                       |
| • Next JS        | • Github       | • Shadcn UI                      |
| • Origin Ui      | • Bootstrap    | • Mantine UI                     |
| • Minimal tiptap | • platejs      | • Nivo chart                     |
| • Recharts       | • GSAP         | • Framer motion                  |
| • Strapi CMS     | • Sizzy        | • Clerk & Zitadel Authentication |
| • Scrum-Driven   | • Team-Focused | • Expressive                     |
